

Africa-EU Cooperation on Open Living Labs (local innovation and technology transfer): Status and Perspectives

“Telling the African Story of Innovation through Technology and Community”

Ushahidi and iHub
Jessica Colaco, iHub Research Lead

4th Euro-Africa Cooperation Forum on ICT Research
November, 14th - 15th, 2011
Capetown, South Africa

Ushahidi = Testimony

A photograph of a man in a light blue shirt holding a large, flat, brown stone high in the air with his right hand. He is looking upwards. In the background, a large blue and red banner is being hoisted by a green metal scaffolding structure. The banner features a portrait of Raila Odinga and the text 'RAILA ODINGA' and 'THE PEOPLE'S PRESIDENT'. The scene is filled with dust or smoke, suggesting a moment of protest or celebration.

Born out of the post-election violence in Kenya in 2008, used to map reports of violence and peace efforts throughout the country.

Deployments of the Ushahidi Platform*

January 2009 - September 2011

2009

2010

2011

**Comprises deployments hosted by Ushahidi's servers, deployments hosted outside of Ushahidi's servers, and Crowdmap deployments.*

“Telling stories and creating an anthology of stories about technology and community through research”

* Hub
Research

The logo features a white asterisk, a green vertical bar, and the word 'Hub' in white, with 'Research' in a smaller white font below it. Below the text is a grey silhouette of a city skyline.

A photograph of a modern lounge area with a brown sofa, purple armchairs, and a bookshelf. Two people are sitting on the sofa, one using a laptop. The ceiling has a green and white circular light fixture.

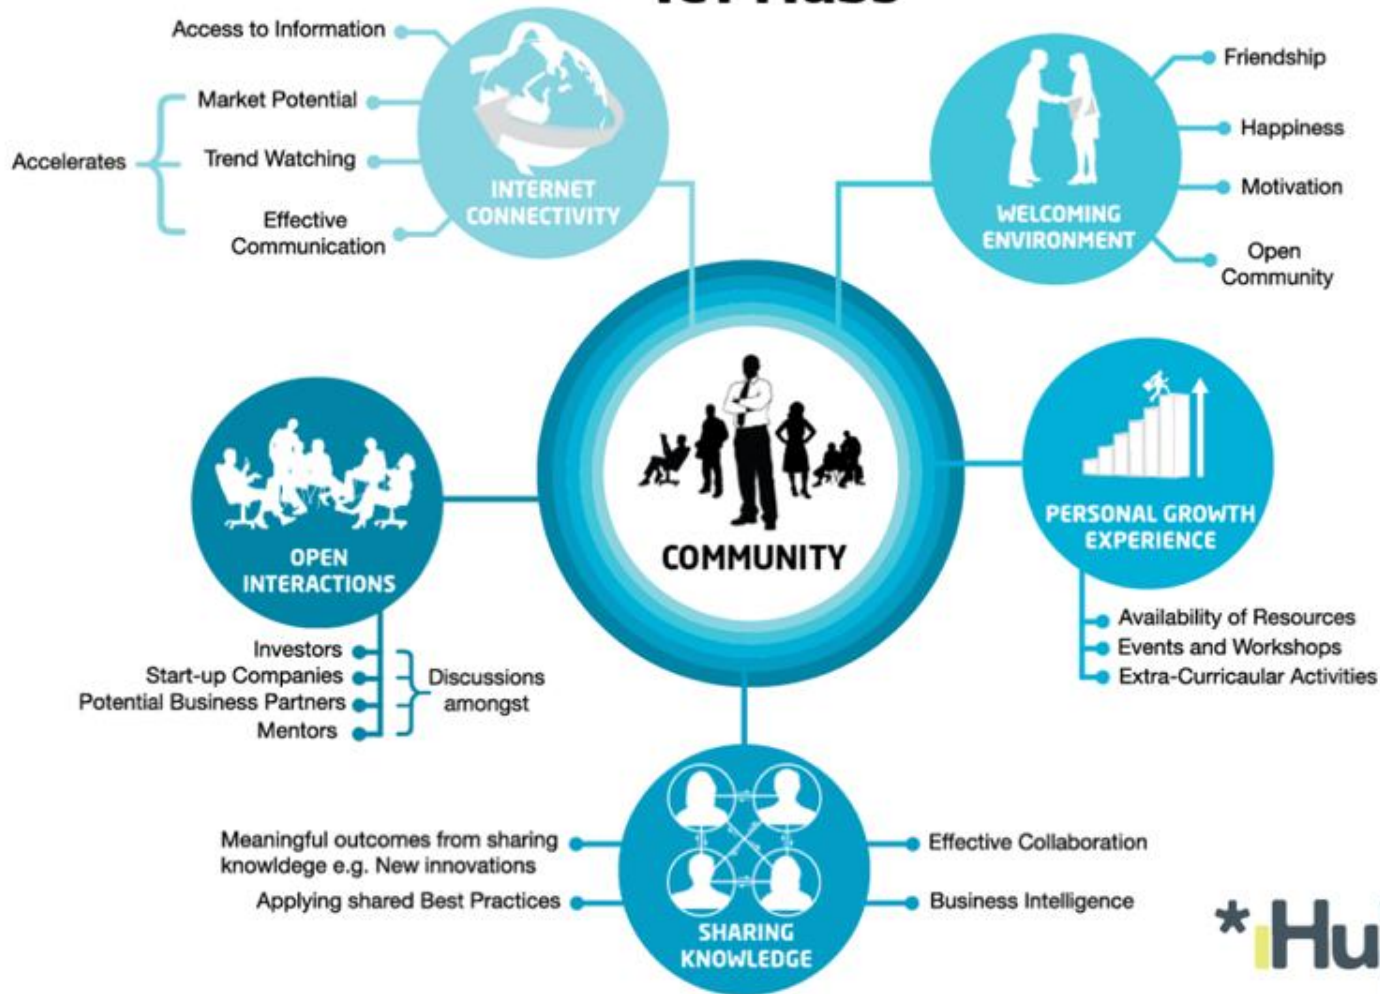

Conduit for:

- * local tech research
- * building research capacity

Driving local tech research in Africa through
social research and market research
